Email Reduction Campaign

A Spam : 0.3g of CO2

An email without attached document : 4g of CO2

An email with a small attached document (<1Mo) : 19g of CO2

An email with a big attached document (>1Mo) : 50g of CO2

A newsletter : 10g of CO2

*According to ADEME

EMAILS POLLUTION CHALLENGE

	BEFORE	AFTER	DELTA
TOTAL	304 248	233 928	-23,11%
BALI	34 990	19 160	-45,24%
FRANCE	33 450	21 995	-34,25%
SRI LANKA	167 884	125 148	-25,46%
INDIA	67 924	67 625	-0,44%

DID YOU KNOW THAT?

**1 EMAIL =
20 GRAMMES OF CO2**

Pillar Environment : Externally

Carbon compensation fee for every trip

based on 12 nights / 13 days for 3 pax,
including hotel electricity consumption,
150km per day with a private transport, one
way national flight

2,15 tonnes of CO₂ = 48,15 € for 3 pax
=> 1.23 € per pax per day

Pillar Environment : The results in 2019-20

CARBON COMPENSATION PROJECT

38K €

collected for donation

FRIENDS OF THE NATIONAL PARKS FOUNDATION
(YAYASAN PECINTA/PENYANTUN TAMAN NASIONAL)

HIMALAYAN INSTITUTE OF ALTERNATIVES, LADAKH
An Alternative Institute for Mountain Development

Himalayan Institute of Alternatives in Ladakh is an NGO that aims at developing a sustainable economic living in the mountains, with a reforestation program and an educative program to the population for a sustainable future.

3 000
trees

This project aims to empower women and support green transportation modes in India, Nepal and Tibet. One of their program we participated in, was to empower women in India by training them for an eco-friendly (and useful!) job: driving electric rickshaws!
